

Audit Tool

XFRX - Cannot load XFRXlib.dll

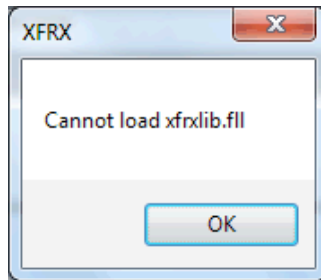

for Audit Tool version: 1.0.5 onwards (release versions)

© Jet Net Systems 2013

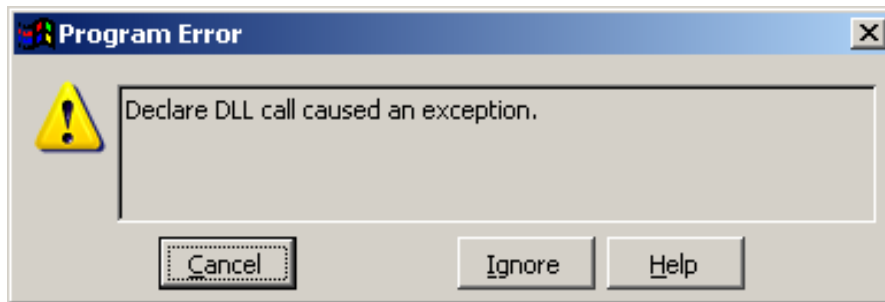

document version 1.0.1

Cannot load xfrxlib.fll

XFRX is a third-party tool incorporated into the Audit Tool / Complyer to generate PDF documents.

This error can be followed by:

You should click **Cancel**. If you've got these errors, then the library used to generate the PDF (xfrxlib.fll) cannot be found on your system, and it will need to be added. You can download this file from the internet at:

www.jet-net.co.uk/ALP/xfrxlib.fll.

Please save or copy it to

c:\program files\audittool.

The Audit Tool / Complyer should now work.

In some cases even downloading this file results in the same error being generated. In such cases you should check for the following additional files:

- gdiplus.dll
- msucr71.dll
- msvcp71.dll

If you don't have these files on your system then download the relevant file from:

- www.jet-net.co.uk/ALP/gdiplus.dll
- www.jet-net.co.uk/ALP/msucr71.dll
- www.jet-net.co.uk/ALP/msvcp71.dll

These should be saved into your Audit Tool folder c:\program files\audittool, or if you feel confident enough that they won't interfere with other Windows programs, can be saved to the windows system folder c:\windows\system32.
